PUBLIC NOTICE OF APPEAL

TO: All Interested Parties

FROM: S.C. Department of Health and Environmental Control

SUBJ: Town of Hilton Head Island, 2007-0676-1ID

DATE: May 16, 2008

The Department issued the above referenced permit for the rehabilitation of the Lands End groin on Calibogue Sound adjacent to Wexford Drive in Sea Pines, Hilton Head Island, Beaufort County, South Carolina.

Lynn Block has requested a contested case hearing before the Administrative Law Court.

Intervenors: A motion for leave to intervene, with the \$25 filing fee, shall be filed with the South Carolina Administrative Law Court, Edgar A. Brown Building, 1205 Pendleton Street, Suite 224, Columbia, South Carolina 29201, (telephone 734-0550) and served on all parties and shall state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of the intervention on the proceedings. A proposed answer or position in intervention shall be attached to the motion.

Any person may intervene in any pending contested case hearing upon a showing that:

- (1) the movant will be aggrieved or adversely affected by the final order;
- (2) the interests of the movant are not being adequately represented by existing parties, or that it is otherwise entitled to intervene;
- (3) that intervention will not unduly prolong the proceedings or otherwise prejudice the rights of existing parties.

The motion for leave to intervene shall be filed as early in the proceedings as possible to avoid adverse impact on the existing parties or the disposition of the proceedings. Unless otherwise ordered by the administrative law judge, the motion to intervene shall be filed at least twenty (20) days before the hearing. Any later motion shall contain a statement of good cause for the failure to intervene earlier.

A person granted leave to intervene is a party to the proceeding. The intervenor shall be bound by any agreement, arrangement or other matter previously determined in the case. The order granting intervention may restrict the issues to be raised or otherwise condition the intervenor's participation in the proceeding. If appropriate, the administrative law judge may order consolidation of petitions and briefs and limit the number of representatives allowed to participate in the proceedings.

SPECIAL NOTES

***DMPs** Dock Master Plans - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

****WMPs** Wetland Master Plans – OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

*****SWMPs** Stormwater Master Plans – OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.

******PERs** Preliminary Engineering Reports – OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE

May 16, 2008

Permit Number: OCRM-08-110-B
Permit ID: 63220

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Darlene Venable
C/O Charles F. Dawley, Jr., R.L.S.
661 Hidden Boulevard
Mount Pleasant, South Carolina 29464

LOCATION: On and adjacent to Hamlin Creek at 612 Palm Blvd, Isle of Palms, Charleston County, South Carolina. TMS#: 568-10-00-222.

WORK: The work as proposed and shown on the attached drawings consists of modifying an existing dock. The proposed modifications consist of adding a partial 12' x 12' roof over the existing 10.5' x 24' fixed pierhead, adding a 12' x 13', four-pile boatlift on the channelward side of the pierhead, and relocating an existing 6' x 20' floating dock to a parallel orientation to the pierhead. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before May 31, 2008. For further information please contact the project manager for this activity, Steve Brooks at 843-953-0235.

May 16, 2008

Permit Number: OCRM-08-115-B
Permit ID: 63223

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Town of Sullivan's Island
C/o WPC, Inc.
1450 Fifth Street West
North Charleston, South Carolina 29405

LOCATION: On and adjacent to the Cove, off the Atlantic Intracoastal Waterway at the terminus of Station 12 Street, Sullivan's Island, Charleston County, South Carolina.
TMS# 523-07-00-061

WORK: The work as proposed and shown on the attached plans will consist of placing earthen fill material in the tidelands critical area. Specifically, approximately 162 cubic yards of earthen fill material will be placed in approximately 0.05 acres (roughly a 25' x 107' area) of tideland critical area. The purpose of the proposed work is to prevent an existing sewer line from becoming exposed due to erosion and to re-establish a historically upland maintenance area for access to the sewer line for maintenance and repair. **PLEASE NOTE:** This proposed project has been authorized under a Nationwide 3 permit by the U.S Army Corps of Engineers.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

PERMIT APPLICATION PUBLIC NOTICE**

May 16, 2008

Permit Number: OCRM-08-116-E
Permit ID: 62833

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Stono Marina Partners LLC
c/o Thomas & Hutton Engineering Co.
935 Houston Northcutt Blvd.
Mount Pleasant, SC 29464

LOCATION: On and adjacent to the Stono River at St. Johns Yacht Harbor, 2408 Maybank Hwy., Johns Island, Charleston County, South Carolina. TMS#: 346-00-00-006.

WORK: The work as proposed and shown on the attached plans consists of constructing a bulkhead. A 295' bulkhead will be located along the critical line on the south side of the property. Retaining walls will be also be constructed along the east and west sides of the property on the high-ground side of the marsh critical area line, out of OCRM's jurisdiction. The purpose of the proposed activity is for erosion control. This work is a candidate for authorization by the Corps of Engineers under Nationwide Permit #13.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE

May 16, 2008

Permit Number: OCRM-08-117-E
Permit ID: 63093

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Kiawah Development Partners II, Inc.
c/o Thomas & Hutton Engineering Co.
935 Houston Northcutt Blvd.
Mount Pleasant, SC 29464

LOCATION: On and adjacent to the Kiawah River near Beachwalker Park, Kiawah Island, Charleston County, South Carolina. TMS#: N/A.

WORK: The work as proposed and show on the attached plans consists of constructing an erosion control structure. A 2,783' long combination bulkhead and articulated concrete block revetment will be constructed along the creek bank. The purpose of the proposed activity is for erosion control. This work has been authorized by the Army Corps of Engineers under Nationwide Permit #13.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before May 31, 2008. For further information please contact the project manager for this activity, Bill Eiser, at 843-953-0237.

PERMIT APPLICATION PUBLIC NOTICE**

May 16, 2008

Permit Number: OCRM-08-867-G
Permit ID: 63303

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Shannon E Miller
C/o Gasque & Associates, Inc.
28 Professional Village Circle
Lady's Island, SC 29907

LOCATION: On and adjacent to Coosaw River at 37 Sandpiper Lane, Lady's Island, Beaufort County, South Carolina.
TMS#: R200-007-000-0135-0000.

WORK: The work, as proposed and shown on the attached plans, consists of constructing a private dock. Specifically, the structure will have a 4'x525' walkway with handrails leading to a 15'x15' covered fixed pierhead with water and electricity. Located channelward of the pierhead a 3'x30' ramp will lead to a 12'x20' floating dock. On the ebb side of the pierhead a 3'x24' catwalk will lead to two 12'x12' four pile boatlifts, one on each side of the catwalk. Additionally, an existing mooring buoy located shoreward of the proposed float will be relocated 25' further on the flood side of the present location. The purpose of the dock and buoy relocation is for the owner's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before May 31, 2008. For further information please contact the project manager for this activity, Geordie Madlinger at 843-846-9400.

Permit Number: OCRM-08-871-L
Permit ID: 63307

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Bill Horan
C/o Bailey Marine Construction Inc
277 Old Baileys Rd
Okatie SC 29909

LOCATION: On and adjacent to Euhaw Creek at 382 Euhaw Creek Drive, Ridgeland, Jasper County, South Carolina.
TMS#: 083-00-06-039.

WORK: The work, as proposed and shown on the attached plans, consists of making additions to an existing private dock and relocating the existing floating dock. Specifically, the applicant proposes to reorient the location of the floating dock from parallel to the shoreline to perpendicular to the shoreline. Also proposed is the addition of a 12'x12' four pile boatlift to the ebb side of the floating dock. The purpose of the activity is for the applicant's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before May 31, 2008. For further information please contact the project manager for this activity, Kathleen Lamaker at 843-846-9400.

for a permit to place fill material in and perform excavation in tidal ditches connected to waters of

DISTANT ISLAND CREEK

located on a 25.66 acre tract and several adjacent parcels next to US Highway 21 on Lady's Island, Beaufort County, South Carolina (Latitude 32.40714°, Longitude -80.63457°)

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, 16 JUNE 2008

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of placing approximately 3200 cubic yards of fill material in 0.39 acres of critical area wetlands consisting of tidal ditches that connect to waters of Distant Island Creek. The areas to be impacted with fill include 0.01 acres of critical area wetlands located on the 25.66 acre Wal-Mart site and 0.38 acres of critical area wetlands located within the SCDOT right-of-way of US Highway 21. According to the agent for the applicant, Wal-Mart intends to mitigate for the project impacts following the SCDHEC-OCRM requirements and is actively conducting a search for suitable lands. A mitigation plan will be submitted in the near future. The purpose of the project is to facilitate construction of a new Wal-Mart store (Wal-Mart Store #5740-00) to serve the needs of the surrounding community by providing a complete, up-to-date, state-of-the-art store for the shopping convenience of the public.

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact 0.39 acres of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended). The application has provided a Threatened and Endangered Species Assessment dated September 1007 and has included a letter from the U.S. Fish and Wildlife Service dated October 24, 2007, to the applicant stating that they had reviewed the project under FWS Log No. 2008-TA-0005.

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

16 MAY 2008

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest and will include application of the guidelines promulgated by the Administrator, Environmental Protection Agency (EPA), under authority of Section 404(b) of the Clean Water Act and, as appropriate, the criteria established under authority of Section 102 of the Marine Protection, Research and Sanctuaries Act of 1972, as amended. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Debbie King at 843-329-8044 or toll free at 1-866-329-8187.

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of installing a three groin system as part of a privately funded beach stabilization project designed to protect an approximate 1,000 foot section of Debidue Beach, extending from the existing seawall to the southern property limit. The location and dimensions of each groin are depicted on the attached plans. Each groin will be constructed of aluminum sheetpile, concrete fill, marine mattress, and granite rock resulting in approximately 0.31 acres of fill. The work will be accomplished utilizing a pile driver and excavator. Construction material will be delivered to the project site via trucks or a barge. The project is proposed to occur in conjunction with a future beach nourishment project to be permitted separately. The purpose of the proposed project, according to the applicant, is to restore and maintain a recreational beach that will require fewer and less frequent nourishment events.

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact 0.31 acres of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

Pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended), the District Engineer has consulted the most recently available information and has determined that the Piping Plover a Federally threatened species is present in the vicinity of the project. However, it has been determined that the project will have no effect on this species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request for written concurrence from the U.S. Fish and Wildlife Service and/or the National Marine Fisheries Service on this determination.

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

16 May 2008

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.
